Knowing the life of a lead drives better decisions

As a lead buyer, you may not know very much about the leads you're buying. The typical set of available lead data doesn't give details about how that lead was generated or what the consumer's behavior was prior to completing the lead.

This makes it difficult for your brand to truly understand the value of each lead, and optimize lead performance for your business.

Jornaya can help.

As an independent witness to over 200M consumer events per month across 30,000 web domains, we are in a unique position to provide lead buyers with access to a whole new set of data; enabling you to gain transparency into the life of your leads, get a fuller view of consumer behavior, and ultimately help improve lead performance.

INCREASE LEAD TRANSPARENCY AND PERFORMANCE

- Increase lead transparency and performance with an enriched dataset for lead buyers
- Know the facts about each lead based on Jornaya's presence at the original event
- Unlock lead level data when your partners pass the LeadiD to query with Jornaya
- Access real-time intelligence about lead seller behavior and consumer behavior
- Evaluate over 50 data points for each LeadiD passed from your media partners
- Improve operations and decision making with the Jornaya Intelligence dataset
